60
YEARS
of
INNOVATION

Oioli is 60 years young, and we can't wait to be a part of the lives of many generations to come.

Questa storia comincia 60 anni fa sulle rive del lago d'Orta, patria piemontese della rubinetteria di qualità, quando il giovane Eusebio Oioli comincia a produrre e a commercializzare i suoi prodotti. Sono rubinetti semplici, dal design essenziale, costruiti però con grande cura. Questa storia dunque comincia come tutte le storie di quegli anni con grandi sacrifici, tanto lavoro e una grande tenacia. Ma questa storia non è finita, anzi, giunta oggi alla terza generazione, la oioli è un'azienda in piena espansione.

Con un catalogo di oltre 35 serie complete, frutto di un grandissimo lavoro di ricerca nel design e nella funzionalità. Grazie anche al nuovo insediamento produttivo di Gozzano e ad una efficientissima rete commerciale, sta crescendo su tutti i mercati nazionali ed esteri proponendo con sapienza e professionalità un ottimo prodotto "made in Italy". Qualità e ingegno italiano che vengono apprezzati e riconosciuti in tutto il mondo, che ci fanno continuare con orgoglio il lavoro che aveva cominciato tanti anni fa il fondatore.

Oioli began 60 years ago on Orta lake's shore; the piedmontese land of high quality taps and fittings, when the young Eusebio Oioli started producing and commercializing his products. Simple taps, characterized by an essential design and produced with great care. As all stories of those years, this historical company started with a life of privations, hard and tough work. A tradition that has not come to an end, as today, we can see the third generation, oioli. A factory in continuous development.

The production is organized in a catalogue of more than 35 complete series, in which have been created after rigorous research of style and functionality. Thanks to the new settlement in Gozzano and to an efficient commercial network, the factory is growing on all national and international markets. Offering an excellent product branded "made in Italy" and studied after intelligent and professional work. Quality and italian genius/innovation are appreciated and recognized all over the world; this encourages us to keep on producing and feeling proud of our work, which is an old tradition.

Hace 60 años sobre las riveras del lago de Orta, tierra de alta calidad en la producción de grifos y accesorios, el joven Eusebio Oioli inició a producir y a comercializar sus productos, grifos simples caracterizados por una línea sencilla y sobria y producidos con grande atención.

Como en todas las historias, y no siendo la excepción esta compañía inicio trabajando fuerte y arduamente, la familia ha mantenido la tradición hasta llegar a lo que hoy en día es ya la tercera generación oioli.

Una compañía en continuo desarrollo que presenta su producción en 35 series completas, creadas buscando estilo y funcionalidad.

Gracias a su nuevo establecimiento en Gozzano y a una eficiente red comercial, oioli rubinetterie crece en todos los mercados nacionales e internacionales.

Después de un estudio intenso y constante edemas de un trabajo inteligente y profesional, garantiza y ofrece un producto respaldado por el "hecho en Italia".

La calidad y la innovación italiana son apreciadas y reconocidas en todo el mundo, esto estimula a continuar a producir y a sentir el orgullo de nuestro trabajo, y lo más importante, mantener la tradición que nos respalda.
